Confluent Cloud Infrastructure as Code (IaC) Cluster Linking with PrivateLink Demo

This repository contains Terraform code to set up Confluent Cloud infrastructure with a focus on Cluster Linking using PrivateLink for secure connectivity.

Below is the Terraform visualization of the infrastructure that's created:

Table of Contents

1.0 Resources

- AWS PrivateLink Overview in Confluent Cloud
- Use AWS PrivateLink for Serverless Products on Confluent Cloud
- GitHub Sample Project for Confluent Terraform Provider PrivateLink Attachment
- Geo-replication with Cluster Linking on Confluent Cloud
